

Casino Hollywood

The addition to the San Felipe Casino was a design-build project. The project consisted of adding 36,000sf to the existing casino, which is located approximately 20 miles North of Albuquerque on I-25.

The addition includes more than 14,000sf of additional gaming area for slot machines and other gaming tables. This portion of the project had an early turnover date so the owner could move equipment into the new area as soon as possible.

The addition also includes support and administration areas and a new 17,000sf theater to attract big name acts to the casino.
